*Furniture That Fits*

What's New ... A Bank Case Study

Spring 2005

## **A Special Solution**

Business expansion is typical. Not as typical are the special needs and function requests that pro forma product cannot accommodate. This is where Custom Desk shines.

One of our dealer representatives recently contacted us to fulfill a bank's request at a branch addition. In subsequent meetings with the dealer and project lead, we arrived at the following pictured solutions.

## **First Impressions - Lasting Impressions:**

Tied to the aesthetic of the branch's clientele, a laminate work surface for personal bankers was selected for durability and high perceived value.

We curved the inside shape of the desk for better ergonomics and an engaging "cockpit" feel for the user. We better utilized space by incorporating a custom filing cabinet with storage and an attached wardrobe.

Also on the list, a small conference table with high versatility and attractive presentation.

Solution: A racetrack shape with half cylinder bases and pop-up connectivity to handle all electrical, voice and data.

All wiring was concealed and channeled through the base, with access elegantly screened by an exactly matched veneer panel.

The Custom Desk bank furnishings captured within were based on our Ambassador Series, with the Radius edge profile, and several client selected options. The Ambassador Series includes the following standard specifications and choices:

Work surfaces/crowns 1" thick  
 Profiles - Flush Eased, Flush Radius, Raised Radius, or Bevel  
 Contour horizontal profiling  
 Outside 1" leg  
 Modesty panel - recessed full panel with interior shelf  
 Routed drawer finger pulls  
 4 species wood veneers  
 14 stains with catalyzed lacquer finish

Options:

Drawers - center, keyboard, pencil, and writing shelf  
 Files - 30", 32", 35", 44" - two, three or four high  
 Hardware pulls  
 Metal inlay side reveal  
 Extended wood veneer selection  
 Custom stain color  
 Stone, solid surface, and laminate inlays  
 Panel cutouts  
 Base molding/reveal  
 Wood framed glass doors  
 Tackboard  
 Ambient and task lighting  
 Plastic and retractable grommets  
 Wire management  
 Power module  
 Refrigerator
