HARDWOOD VISUALS: VISUAL BOARDS

Visual Display Boards by Hardwood Visuals are the overachievers of visual communication accessories. Our standard has the classic configuration of a pair of doors covering a central porcelain on steel marker surface, with oversize paper note pad on the inside of the left facing door and fabric tack board on both interior sides. Available in laminate or selection of hardwood solids and select grade matched veneers.

In smaller sizes, it is ideal for private offices. Compact when closed, as well as shielding notes from casual visitors, its fine furniture presentation complements the occupant's décor. Open, it can facilitate brainstorming, small group or individual instruction and discussion; helping bring a "big picture" to a small space.

Similarly, our large version is great for congregate meeting spaces, and meshes well with interactive group discussion. All versions may be ordered with projection screens.
